## ***Recent National and State Economic Indicators Suggest a Continuing Modest Economic Expansion ...***

- Real GDP grew 2.0 percent in the third quarter of 2011, a significant improvement over growth of 0.4 percent in the first quarter and 1.3 percent in the second quarter. The economy has expanded for nine consecutive quarters.
- Payroll employment grew by 120,000 jobs in November.
- The unemployment rate fell 0.4 percentage point to 8.6 percent in November, its lowest rate since March 2009.
  - The decline resulted from a substantial gain in household employment combined with a contraction of the labor force, as discouraged workers dropped out of the job market.
- Employers in Virginia have added jobs in 10 of the last 14 months. Payroll employment in October grew 0.7 percent.
  - Employment increased 0.9 percent Northern Virginia, but fell 0.9 percent in Hampton Roads and 0.7 percent in Richmond-Petersburg.
- The unemployment rate in Virginia fell slightly from 6.4 percent to 6.0 percent in October and remains well below the national rate of 8.6 percent.
- During the week ending December 10, initial claims for unemployment fell by 19,000 to 366,000, the lowest level since May 2008. The four-week moving average decreased from 394,250 to 387,750, its lowest level since July 2008.
- The Conference Board's index of leading indicators rose 0.9 percent in October, its sixth consecutive monthly increase. The rise in the index is consistent with a continuing recovery.

## ***Recent National and State Economic Indicators Suggest a Continuing Modest Economic Expansion (continued)...***

- Consumer confidence rebounded in November, as the Conference Board's index of consumer confidence rose by 15.1 points to 56.0.
  - This is its highest level since July 2011 and the largest gain since April 2003.
- Conditions in the manufacturing sector strengthened in November as the Institute of Supply Management index rose from 50.8 to 52.7. The index has remained above the expansionary threshold of 50.0 for 28 consecutive months.
  - This gain is consistent with a slowly growing economy.
- The CPI fell 0.1 percent in October from the previous month and stands 3.6 percent above October of last year.
  - Core inflation (excluding food and energy prices) rose 0.1 percent for the second consecutive month, and has increased 2.1 percent from October 2010.
- According to RealtyTrac, U.S. foreclosure activity for November declined 14 percent from November 2010, marking the 14th consecutive month of year-over-year declines.
  - One in every 579 U.S. housing units received a foreclosure notice in November.
  - In Virginia, one in every 1331 households received a foreclosure notice.
- The U.S. personal savings rate increased from 3.3 percent in September to 3.5 percent in October.
- The Federal Reserve announced at its November meeting that it will keep the federal funds rate target unchanged at 0.0 to 0.25 percent.

## ***Global Insight's October U.S. standard forecast – “a Weak Growth Outlook”...***

- Real GDP growth of only 1.0 percent in the 4<sup>th</sup> quarter of calendar year 2011 and 1.1 percent in the 1<sup>st</sup> quarter of 2012.
  - Growth is not expected to be above 2.0 percent until 2013.
- The Fed is expected to implement a third round of quantitative easing by the end of calendar year 2011 and to wait until January 2014 to raise interest rates.
- The standard forecast also assumes that:
  - The 2 percent payroll tax cut and the emergency unemployment insurance benefits are extended for 2012 and then phased out over several years;
  - The supercommittee isn't successful, but the automatic sequester doesn't occur. Instead, the new Congress and president come up with a package of spending cuts and tax increases that won't begin until January 2014; and
  - The Bush tax cuts are extended in 2013.
- The odds of a double-dip recession in the U.S. is at 40 percent. However, the Eurozone will fall into a mild recession during the 4<sup>th</sup> quarter of calendar year 2011.

## ***The Fall 2011 Consensus Forecasting Process...***

- The Joint Advisory Board of Economists (JABE) met in October.
  - Members were presented the September standard economic outlook, a pessimistic forecast that is significantly weaker than the official economic forecast.
  - A majority of JABE members supported the standard outlook; however, some members felt more comfortable with the standard minus due to the large downside risks (Eurozone crisis, supercommittee/future spending cuts).
  - The October standard outlook was adjusted consistent with these concerns – specifically lowering employment and wages and salary growth in fiscal years 2012 and 2013.
- The Governor's Advisory Council on Revenue Estimates (GACRE) met in November.
  - Members evaluated JABE recommendations, revenue collections through October, and the associated revenue forecasts for FY12 and the FY12-14 biennium.
  - Of the 12 members present, 11 supported the standard forecast and only one supported the standard minus.
  - Members of the General Assembly who attended had differing opinions: two supported the standard, one supported standard plus and one supported standard minus.

## ***Since GACRE, the U.S. and Virginia Economic Outlooks Have Been Revised Upward ...***

- Global Insight’s November U.S. standard forecast reflects better-than-expected economic growth since October, including the advance estimate of 3<sup>rd</sup> quarter GDP growth of 2.5 percent.
  - As a result, in FY12 real GDP is now expected to grow 1.7 percent instead of 1.4 percent, and employment is expected to grow 0.9 percent instead of 0.7 percent.
- Given GACRE’s support of the standard forecast, JABE adjustments to the Virginia outlook to account for the minority view of “standard minus” were removed.
